Technical Parameter

Technical Specifications		
Engine		Shacman-M3000
Model		SX4187GR361
Emission		EEC
Emission Standard		Euro 3
Dimensions	Length×Width×Height	6110 * 2490 * 3700
Wheelbase (mm)	Front	3600
	Rear	1485
	Wheel	1025
Weight (kg)	G.V.W	18000
	Max. Payload	6870
	Max. Gross Weight	34800
Speed	Max. Speed (km/h)	95
Performance	Engine	WP10.290E32
	Power	213kw/ 290hp
	Gears	6
	Max. Torque (L)	9.726
	Max. Fuel Consumption	24.5L/100km
Brake	Engine	9JS119
	Transmission	9 Gears/100km
Steering	Steering Type	1300STR / 4.42
Chassis	Chassis Type	LHD
Lighting	Lighting	LED
Electrical	Electrical	24V

Our Company & Factory

We are a leading manufacturer of heavy-duty trucks and buses, specializing in the design and production of reliable and efficient vehicles for various applications. Our factory is equipped with advanced machinery and skilled technicians to ensure the highest quality standards.

We offer a wide range of models to meet different customer requirements, including long-haul trucks, dump trucks, and city buses. Our commitment to innovation and excellence has earned us a reputation for delivering top-notch products and services.
